Quigley reached the conclusion, based on the archival material, that the international banking community was manipulating not only the great corporations to which it made loans, and whose stocks it held, but also the foreign and domestic policies of the U.S. Government. "To the Rockefellers, socialism is not a system for redistributing wealth - especially not for redistributing their wealth -but a system to control people and competitors. Socialism puts power in the hands of the government. And since the Rockefellers control the government, government control means Rockefeller control. You may not have known this, but you can be sure they do!" ...[The Rockefeller File by Gary Allen](#)

"If we were merely dealing with the law of averages, half of the events affecting our nation's well-being should be good for America. If we were dealing with mere incompetence, our leaders should occasionally make a mistake in our favor. We . . . are not dealing with coincidence or stupidity, but with planning and brilliance."
-Gary Allen, from his book *None Dare Call It Conspiracy*

Control necessitates a static society. A growing, competitive, and free society gives new people a chance to make their fortune and replace some of those already at the top. So legislation is promoted to restrict entrepreneurial effort and tax away capital accumulations not protected in the tax-free foundations of the Establishment insiders. Every effort is made to press medium-size business to the wall and allow it to be swallowed up by the Establishment giants.....But the fact is that socialism is only a system for control, and the members of the Establishment elite operating out of New York and Washington understand socialism much better than do the Marxists..... the Establishment insiders know that socialism is not a humanitarian system for redistributing wealth, but a system for concentrating wealth and controlling people. Socialism is nothing more or less than a power system -- a power system with quasi-mystical and demonstrably false philosophical premises.

The suggestions of the Trilateral report, "The Crisis of Democracy," are just about the most cultured and genteel proposals for socialist dictatorship I've ever seen. Lenin, Hitler, Stalin, and Mao are illiterate boors by comparison.

The great international bankers and industrialists do not favor competition. What they favor is the formation of cartels and monopolies to control world finance, markets, and natural resources. The Communists, led by the Soviet Union, have basically identical goals on the level of world power. What is more natural than for the Western monopolists to divvy up these spheres with the Communist monopolists of the East? There is a great deal more to it than that, but I think I've made my point. In keeping with the fact that almost everybody seems to have his own definition of [Communism](#), we are going to give you ours, and then we will attempt to prove to you that it is the only valid one. Communism: AN INTERNATIONAL CONSPIRATORIAL DRIVE FOR POWER ON THE PART OF MEN IN HIGH PLACES WILLING TO USE ANY MEANS TO BRING ABOUT THEIR DESIRED AIM - GLOBAL CONQUEST.

You will notice that we did not mention Marx, Engels, Lenin, Trotsky, bourgeois, proletariat or dialectical materialism. We said nothing of the pseudo-economics or political philosophy of the Communists. These are the TECHNIQUES of Communism and should not be confused with the Communist conspiracy itself. We did call it an international conspiratorial drive for power. Unless we understand the conspiratorial nature of Communism, we don't understand it at all. ----- **Gary Allen, None dare call it conspiracy**
